1 Read the label before use.

TEMPLARIO PLUS®

Manufacturer

CONTENT AND GUARANTEED CONCENTRATIONS

Water-soluble Potassium oxide (K₂O) 12 %w/w

PHYSICAL - CHEMICAL PROPERTIES

pH: 10,3 approx.

HAZARD STATEMENTS

H318 – Causes serious eye damage.

PRECAUTIONARY STATEMENTS

P280: Wear protective gloves/protective clothing/eye protection/face protection.
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310: Immediately call a poison center/doctor.

Substances that contribute to the classification: Alcohols, C11-14-iso-, C13-rich, ethoxylated (<10%); Salicylic acid (<10%).

CAUTION

Do not exceed the rates indicated above. It is always recommended for any new tank mix to test the spray in a small area to check for any phytotoxicities before proceeding with the general application.

WARNINGS AND RECOMMENDATIONS

Thorough cleaning of application equipment is recommended prior to preparing the mix. Avoid spraying at times of the day with high temperatures (above 33°C).

The company guarantees the content and concentration stated on the label, however there may be application factors outside of company control. For example – mixture preparation, application, weather conditions etc. that may impact product performance. The user will be responsible for any damage caused to the crop, the soil or to the operator, due to any full or partial failure to observe the information given in this document. Product application is recommended under technical agronomic advice. Please follow the label without exceeding the recommended rates.

INCOMPATIBILITIES

Do not mix with products with an alkaline reaction product without a Jar-Test beforehand to ensure compatibilities between products.

NORMAL STORAGE CONDITIONS

Try to keep at from 5°C to 35°C to keep the product in its best condition.

CHARACTERISTICS

TEMPLARIO PLUS® is a product based on unsaturated organic acids, carboxylic acids and potassium, aimed to activate and strengthen crops in critical moments of the cycle contributing to improve the quality of the harvest.

TEMPLARIO PLUS® stimulates the antioxidant activity of the crop, alleviating the stress generated by oxidation on the skin of fruit, vegetables, berries and grapes.

TEMPLARIO PLUS® reduces the excess of surface moisture and its unfavorable conditions.

TEMPLARIO PLUS® activates the synthesis of phytoalexins and pathogenic-related (PR) proteins, generating and induced systemic resistance, a plant self-defence mechanism.

TEMPLARIO PLUS® also includes high-assimilability potassium, contributing to maintain the turgor and the osmotic balance of the crops.

DOSAGE FOR USE

Crop	Foliar Spray (mL/100L)
Berries	200 – 300 mL/100L
Fruit Trees (Citrus, Pome Fruit, Stone Fruits)	
Grapes	
Vegetables	

*Apply throughout the crop cycle in moments of need and with an interval of 10 – 15 days.

PRECAUTIONS, WARNINGS AND RECOMMENDATIONS

Do not use in plant stress situations (drought, root asphyxia, excessive cold, damp or temperature, etc.). Perform the treatment preferably in the morning or in the evening, avoiding times of day with high temperatures. The company guarantees the content and concentration stated on the label, however there may be application factors outside of company control. For example – mixture preparation, application, weather conditions etc. that may impact product performance. The user will be responsible for any damage caused to the crop, the soil or to the operator, due to any full or partial failure to observe the information given in this document. Product application is recommended under technical agronomic advice. Please follow the label without exceeding the recommended rates.
