**4.1 Description of first aid measures**

**Eye**    Do not allow the person affected to rub or close their eyes. If the injured person uses contact lenses, these should be removed unless they are stuck to the eyes, as this could cause further damage.  
If in eyes, hold eyelids apart and flush continuously with running water. Continue flushing until advised to stop by a Poisons Information Centre, a doctor, or for at least 15 minutes.

**Inhalation**    If inhaled, remove from contaminated area. Apply artificial respiration if not breathing. Seek medical attention if the symptoms get worse or persist.

**Skin**    In case of contact it is recommended to clean the affected area thoroughly with water and neutral soap. In case of modifications on the skin (stinging, redness, rashes, blisters), seek medical advice with this SDS.

**Ingestion**    For advice, contact a Poisons Information Centre on 13 11 26 (Australia Wide) or a doctor (at once).

**First aid facilities**    Eye wash facilities should be available.
